

NovaCore:

Our Custom Software

NovaCore: Our custom web-based software to help manage NovaXpress's delivery of happiness. We decided to develop our own software as to not restrict our ideas and creativity to the confines of preexisting software. NovaCore allows us to easily prototype and experiment with features allowing us to bring new workflows and innovations to the delivery industry.

NovaCore: Managing the Team

The screenshot displays the NovaCore web application interface. At the top, the logo "NOVACORE" is shown with the tagline "Powering NovaXpress since 2021". The user "Jeremy Banks" (ID #0001) is logged in as a Developer. The navigation bar includes links for Dashboard, Users, Logs, Reports, Fleet, Jobs, Tools, and Configuration. The main content area is titled "User List" and features a search bar and a "CSV" download button. A table lists users with columns for Employee ID, First Name, and Last Name. The "Your Profile" form is overlaid on the right, containing sections for Profile Image, Personal Details, Contact Information, and Address. The form includes fields for Employee ID, First Name, Last Name, Email Address, Join Date, User Notes, Roles, and various contact and address details. A "Save Changes" button is at the bottom right of the form.

NovaCore contains many utilities for onboarding new employees, keeping their documents up-to-date and ensuring that the appropriate information is available to the people who need to access it.

NovaCore has a robust permission system allowing different roles in our company to perform applicable actions and only access the information pertinent to them.

NovaCore: Logging Information

We have many forms for collecting important information for pay, invoicing and optimization.

We create many tools for our staff to ensure they can provide us with information in an easy, efficient and accurate manner.

Much of our infrastructure is also developed especially for our enterprises with specific clients. Allowing for very smooth operations with them.

The screenshot displays the NovaCore interface for logging Canada Post deliveries. The main form is titled "Canada Post Delivery Logs for Miramichi" and includes a location dropdown set to "Miramichi" and a date field set to "2022-12-13". It features a "Per Courier (Combined Urban Services)" section with a list of couriers: CUS #1 (George Ramsey), CUS #2 (Jonathan Ingram), CUS #3 (Marc Thibault), CUS #4 (Adam Cameron), and CUS #5 (No Courier Assigned). The "Deliveries by CUS #1 on the 13th" section shows fields for "Courier" (#0022) George Ramsey, "Late Relay Item" (0), "LC Consolidation" (0), "Barcoded Signature" (3), "Barcoded Non-signature" (124), "COD or Custom Item" (0), "Non-barcoded" (1), and "SLB (Multiple)". A "Save Changes to CUS" button is at the bottom.

An "Enter Hour Logs" modal is open, showing a date picker for "2023-01-09" (Monday, January 9). It includes a "Location" dropdown set to "Sydney" and a "Client" dropdown set to "Canada Post". The "Start Time" is "07:30 AM" and the "End Time" is "05:30 PM". A "Break Duration" of "30 minute break" is shown. The modal also displays "Entered on January 9, 2023. Not yet approved." and "Worked for 9 hours, 30 minutes." A "Save" button is prominent, along with "Approve", "Delete", and "Create Another Entry" buttons. A "Go to Overview" button is at the bottom.

On the right side of the modal, there is a "Count" table with a list of numbers: 52, 0, 15, 0, 13, 386, 4, 2, 40, 0, 3, 3, 0.

NovaCore: Accessing the Information - Reporting

Of course, when collecting information, you must have tools to view it.

NovaCore provides easy access to all the information to the parties that would require it.

With our reports, we provide tools allowing managers to validate the integrity of our data by approving information relating to their operation.

The screenshot displays the NovaCore web application interface. At the top, the NovaCore logo is visible with the tagline "Powering NovaXpress since 2021". The user profile for Jeremy Banks (Developer) is shown in the top right corner. The main navigation bar includes links for Dashboard, Users, Logs, Reports, Fleet, Jobs, Tools, and Configuration. The interface is divided into several report sections:

- Hour Reports:** Displays a table with columns for Date, Courier, Client, Location, and Start. The pay period is set to January 2, 2023 to January 15, 2023.
- ShipTrack Reports:** Displays a table with columns for Date, Client, Pieces, Stops, and Earnings. The pay period is set to December 5, 2022 to December 18, 2022.
- Delivery Reports:** Displays a table with columns for Day, Date, Relay Item, Late Relay Item, Direct Stop, LC Consolidation, and Barcode. The location is set to Kentville.

Each report section includes a search bar and a "Choose" dropdown menu for filtering data. The Delivery Reports section also includes a "CSV" download button.
